Never Too Many People
Age Balances Youth
Theoretical Equality
What Rockefeller Needs

By Arthur Brisbane

Dr. E. A. Ross says this country will have 253,000,000 people in the year 2000, only seventy-eight years from now. The ignorant, worried, think we shall then be like China, overcrowded and starving. Machinery and science will take care of that. There are now about 1,500 million people on earth. Under intensive cultivation, the State of Texas alone could feed them all.

When we have 253 million people our great demand will still be MORE PEOPLE of the right kind.

In an old English school book by Thomas Diworthe, you read: "Young folks think old folks to be fools, but old folks know young folks to be fools." Both statements are false. Youth and age represent balance, as do gravitation and radioactivity. Youth pushes ahead, age holds back. Wisdom and folly are in the conservatism of the old, folly and wisdom in youth's impetuosity. Neither knows it, which is part of this wise plan.

All men are created equal is the theory. Every day proves we do not believe it. American religion, helping the starving in Austria, announces that \$200,000 has been set aside to "feed the intellectuals."

They are supposed to be mentally superior to others, professors and students, selected because their lives are more important than the lives of inferior creatures. The university kitchen will feed 700 more professors and 3,000 more students.

Theory is all very well, but it takes generations to develop a brain with convolutions deep enough to be worth while, and when you get one, to feed it is wise—it's worth 100 others.

A New York city official attacks the Rockefeller group, alleging that it seeks to lower the standard of education. Mr. Rockefeller, says the learned commissioner in question, wants school to turn out men and women of low education, willing to work as poorly paid slaves.

If that be true, "Mr. Rockefeller" has suddenly lost his mind. A big corporation needs employees of exceptional ability, and cares little what it pays to get such men. The so-called "wage slaves" are always plentiful. Except occasionally, in war time, you can get them by the million and at your own price, but the plant that puts out the slave "No man wanted" always wants men of unusual ability, at high pay, and cannot get enough of them.

The Standard Oil Company, for instance, hires at good pay more able chemists today than the whole world could have supplied 500 years ago. But Mr. Rockefeller, in his institute for scientific research on profit here—will welcome any man of unusual power, pay him what he wants and let him spend the amount in scientific work. If the Rockefeller family are trying to discourage higher education, they do not understand their own interests—and that sounds incredible.

Short, President of the German Republic, is a sadistic maker by trade. The union has just put him out, alleging that he is the enemy of labor. A different job makes a different man. You see things differently from a higher place, not always more accurately, but differently. The black slave, promoted to be overseer, with a whip in his hand, often beat the other slaves more brutally than the white overseers. Those that make money are often forced to help the poor are often those that lack nothing. In the entire French Revolution, for instance, no workman played any important or even secondary part.

The lady president of the General Federation of Women's Clubs says ladies are against the use of poison gas in warfare, but they believe the government should use gas to help the poor are often those that lack nothing. In the entire French Revolution, for instance, no workman played any important or even secondary part.

Impatient radicals decided on Saturday that they would "take the home of the rich." Then they had coffee. Before seeing they ought to take a committee. Russia, where homes of the rich have been seized already, the aristocratic lady, could tell them there is nothing so serious as taking people's homes. There are few of them, and they are easily taken care of. It would have done no good to take the few. But to push along and finally put better, porcelain lined walls in a million flats, V.A.R. is worth while? Construction is the thing.

New Mayor in Inaugural Address Calls for Five-Cent Fare Within a Year

James M. Curley was inaugurated Mayor of Boston for the second time today before a crowd of more than 14,000 men and women in Mechanics Building.

Immediately after the ceremony, the mayor announced the following appointments: Edmund Dolan, city collector, salary \$5,000; John J. Curley, brother of the mayor, city treasurer, salary \$6,000; Dr. Francis X. Mahoney, health commissioner, salary \$7,500; John J. O'Brien, superintendent of the municipal printing plant, salary \$5,000; Thomas P. Glynn, schoolhouse commissioner, salary \$2,500; and Joseph A. Rourke, commissioner of public works, salary \$3,000.

Within an hour and a half after taking the oath of office, Mayor Curley was at work at his desk in the city hall, and had forwarded the appointments to the Civil Service Commission for approval, and had named as acting head of the schoolhouse and printing departments Colonel John H. Eggen, former street commissioner, and as

A car with four men in it, which was in an automobile dashed across a railroad track a few feet in front of a fast train, resulted in the appearance in Waltham court today of Edward John, forty-two years old, of No. 53 Ash street, and Daniel A. McPherson, thirty-seven years old, of No. 71 Grand street, both of Waltham.

Patrolman Cohen testified that the crossing tender, seeing the men were not going to stop, raised the crossing gates and allowed the auto speedsters to speed across the tracks just in front of the train.

SOFT COAL IS CUT 50 CENTS IN BOSTON
Soft coal was reduced to cents a ton today. It is now \$4.25 net a ton delivered. This is the third 50-cent cut in three months. The reduction was announced by the Metropolitan Coal Company. It applies to the best New River and Pocahontas grades. Fuel men depression, it is said, has cut down the demand for soft coal, and is piling up, despite sluggish conditions in the coal fields.

Wealthy New Yorker, Who Disappeared on Day After the Crime, Is Sought

By International News Service.
Los Angeles, Feb. 6.—Out of the maze of clues gleaned from the stray ends of the tangled skein of William Desmond Taylor's life, private detectives are centering their investigation of the film director's murder on information that centres around the triangular love affair in which the slain man, a popular screen actress and a son of a wealthy Eastern family are said to have played the leading roles.

Other phases of the police investigation, some of which hint of a drive into the underworld, involve drug traffickers and other elements of the criminal realm.

Wealthy New Yorker, Who Disappeared on Day After the Crime, Is Sought

Still other angles of the probe of the mystery reach out toward the circle of stardom in the film industry.

Wealthy New Yorker, Who Disappeared on Day After the Crime, Is Sought

The love triangle theory projected itself strongly into the case today when police announced that they had learned that a wealthy young New Yorker, at one time reported engaged to marry a leading actress of the film world, had mysteriously dropped from sight the day following the murder of Taylor.

Wealthy New Yorker, Who Disappeared on Day After the Crime, Is Sought

Other investigators learned that the actress in question was a close friend of the murdered man and are probing on a theory that the former fiancée, discovering the close friendship existing between the screen star and director, may have been driven to commit murder by his rage which followed this revelation.

Wealthy New Yorker, Who Disappeared on Day After the Crime, Is Sought

Police today refused to disclose the identity of the two persons in question. Announcement was made, however, that investigators have been detailed to trace the movements of the young man, who checked out of one of the leading hotels of the city the day after the murder and has not been seen by friends since.

Treaties Signed, President Delivers Speech Praising Conference Achievements

Washington, Feb. 6 (By the Associated Press).—The history-making conference on the limitation of armaments and Far Eastern questions came to its end today with the signing of treaties and a farewell address by President Harding.

Treaties Signed, President Delivers Speech Praising Conference Achievements

With its work characterized by Mr. Harding as "the first deliberate and effective expression of great powers, in the consciousness of peace, of war's utter futility," the great conference went to its niche of history to await the judgments and developments of the future.

Treaties Signed, President Delivers Speech Praising Conference Achievements

In the great Assembly Hall of the Teachers of the American Revolution, where all its open sessions have been held, the delegates of the nine nations assembled marched in turn to a room at the great gym hall table and affixed their signatures to treaties and agreements which are all parts of the structure built to lift from a war-world the burden of excessive naval armaments; to promote the peace of the Pacific; to give a new bill of rights to China, and to remove from the Far East, particularly, the clouds of war.

Rome, Feb. 6 (By the Associated Press).—Cardinal Achille Ratti, Archbishop of Milan, was proclaimed elected Pope, in succession to the late Benedict XV., this morning. He has taken the name of Pius XI.

The thousands waiting in front of St. Peter's for the wisp of smoke which would tell of the election of a new Pope or the failure of the Sacred College to reach a decision gave a mighty shout at 11:32 o'clock when a thin wisp of smoke came from the chimney leading from the Sistine chapel. It was then known that the Catholic Church had once more a duly-elected Pontiff.

As soon as the two-thirds vote for Cardinal Ratti had been verified, Cardinal Vannutelli, as dean of the Sacred College, arose and proceeded to the throne of the chosen one, accompanied on either side by Cardinals continued on Page 7, Column 2.

SAY INVESTORS MUST PAY BACK PUNZI PROFITS

Ruling of Judge Anderson Has No Effect on Other Suits, Trustees Declare

Trustees of the Charles Ponzi estate, in a statement, notified the thousands who lost in the "get-rich-quick" swindle that they are granting suits in the United States court for about \$1,000,000.

The adverse decision of Judge Anderson, which the statement, applies to the particular cases presented in the cases before the court and in no way refers to the rights of the trustees to recover profits made by Ponzi investors.

The statement, signed by William H. Sears, chairman, James A. Lowell and Edward A. Thorne, continues: "Judge Anderson decided in the Ponzi cases before him that these Ponzi investors did not have to return the profits they had received from the Ponzi scheme."

"The Ponzi trust paid a dividend of 30 per cent. just before Christmas. They hope to pay an additional dividend of 30 per cent. in the near future. The trustees have decided to refuse to pay the dividends to the Ponzi investors."

WOMAN REFUSES TO SERVE ON MURDER JURY WITH ELEVEN MEN

AMERICA'S HUNGRY
for Hungary's Most Beautiful Steppe
Ellen de Lorch, who is called by some the comeliest cat in Europe, has arrived in America. It is understood a delegation of the species T. U. M. (see footnote) greeted her at the dock. She has auburn hair, violet eyes, and is a Pavlova stopper. (Footnote—Tired Business Man.) (P. & A.)

CHAMPIONS—THE FIVE OF 'EM! This quartet of horses has won six firsts and three seconds in the meets at Fitchburg in the short space of a few weeks. They were entered by Mrs. L. F. Warner of Hampden, L. I. Above, holding the animal on the right. Left to right the blue ribbon winners are: "Mary's Magnate," "Bay Leaf," "Pulaski" and "True as Steel."

SOMEBODY Threw a Lot of Mud Here! This cabin, of odd design and structure, was built by a wealthy Cincinnati, and inside and out is made of concrete, except window glass. (International.)

"US GIRLS" Have to Be Careful About One Man, Let Alone Eleven! Miss Norma Crown of Milwaukee, Wis., refused to serve on a murder jury with 11 men. She said she couldn't reach a fair verdict after spending 2 weeks. She had to leave him alone. Bat turtle soup was on her dinner menu that evening.

SHE'S GOT HIM ON A STRING! Mrs. Ernest J. Sarber of Chicago went fishing the other day at Palm Beach with an ordinary hook and line and a small boat. Suddenly came a terrific tug on the line and she pulled up this 175-pound turtle. She had to leave him alone. Bat turtle soup was on her dinner menu that evening.

YOU WOULD, WOULDN'T YOU, Even if It Is Wood? This charming little hat is for the South or Spring wear and is a combination of wood and straw in lavender, enhanced by a fan-like ornament of fluted ribbon jutting out at the side. (Underwood.)

NOBODY IN WASHINGTON Will Ever Get Writer's Cramp Signing the Soldiers' Bonuses! Ohio is paying its soldier heroes \$10 month bonus for every month up to 24 months. This device, the "signograph," will sign dozens of checks at one stroke. Atty.-Gen. John C. Price of Ohio is signing the books. (Underwood.)

WASHINGTON Doesn't Often Have a Chance to Get a Skate On, but When it Does, This Mirror Basin in Front of the Lincoln Memorial is an Ideal Rink. The water, being clear and protected, freezes hard and smooth.

YOU CAN'T Keep a Grass Widow Down! Mrs. Ida May Bowers, 50, of Los Angeles, took stock. She had \$150 and a big rest, so she decided to become a home owner, and this building above is the result. She built it with her own hands, without outside help, for \$150. (International.)

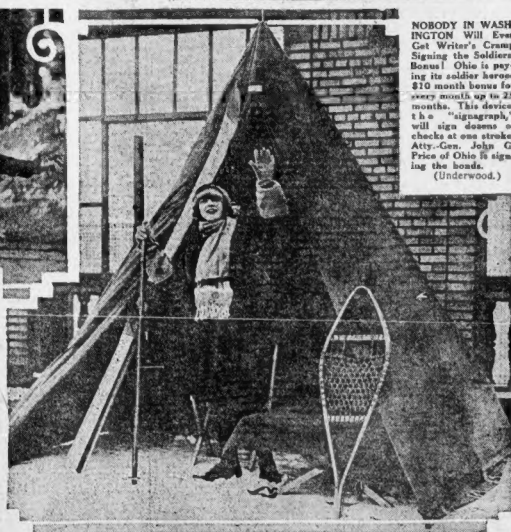

FIGURES AND FIGURE SKATING! Did you ever "do" the airplane? It's great fun! Summon the family doctor and then try it! Here is William P. Chase, formerly of Boston, and Miss Beatrice Laughlin of N. Y., "doing the airplane" at Lake Placid. Miss Laughlin is the woman's international figure champion skater. Nick Flory is an outstanding judge of figures, says trying to figure this out makes him dizzy. (Underwood.)

A LADY Becomes a "Woman Commoner"! Although just past her 20th birthday, Viscountess Windsor, pictured above, has been elected to the House of Commons as a conservative member of the Ludlow division of Shropshire. She is well known in America. (Underwood.)

MAJ. GEN. GEORGE O. SQUIER, chief signal officer, U. S. A., and the "superphone," a small telephone, which can be connected to existing phone wires—without any chance of the conversation being overheard, intercepted or broken into. (P. & A.)

SHE WANTS EVERYTHING FRESH!—Capt. Stage Door Johnnie! She is Maribel Harrison, Yes, Over, an actress, and a former resident of Poughkeepsie, N. Y., where she "got that homestead feeling" and erected a tent atop her apartment house, where she is leading the simple life like the rest of the simps. She wanted, particularly, lots of fresh air. From last accounts Maribel was getting it—with a vengeance. (Underwood.)

TODAY'S LESSON! Well, children, what nation has the third largest bridge in the world? No, Vertigo, America cannot boast of this distinction. It must go to poor, downtrodden Russia. The bridge cost \$23,000,000 and crosses the Amur River north of Khabarovsk, Siberia. Years were occupied in making it. (International.)

OWNERS REFUSE TO CONFER WITH MILL STRIKERS

Thirteen Plants Are Shut Down in the Pawtuxet Valley

Providence, R. I., Feb. 6.—Cotton mill companies in the Pawtuxet Valley were today refusing to discuss with striking employees the possibility of a resumption of operations on the basis of a forty-eight hour week and alteration of the recent 20 per cent. pay cut.

In the case of B. B. & R. Knight, Inc., the largest concern in that part of the State, a conference to discuss that basis of settlement was refused. Precisely all but one of the Pawtuxet Valley are on a fifty-four hour week. The two cotton mills and two leather plants are closed down. Five finishing plants are crippled by reduction in part of their employees and about \$500,000 in operations are out of work in Rhode Island as the result of strikes in protest of wage cuts and increases in working hours.

13 PLANTS SHUT DOWN.

In the Pawtuxet valley, the second most important cotton manufacturing centre in the State, thirteen plants have been shut down since a 20 per cent. pay reduction was put into effect two weeks ago. Every plant that made the cut has been closed and five thousand operatives are out of work. Most of these are unorganized. Some of them belong to the American Textile Workers of America, which is actively fostering the strike.

The plants closed in the Pawtuxet valley are: Pontiac, Natick, Royal and Valley Queen (interdependent), and Centerville mills and Pontiac Bleachery of B. B. & R. Knight, Inc.; Hope and Fenwick mills of the H. B. Company, owned by H. B. and J. H. Harris and Arkwright mills and Arkwright Bleachery of the Interborough Company, and Violet and Cordonia mills of the Crompton Company at Crompton.

THE L. P. LONSDALE MILLS.

The United Textile Workers of America, the American Federation of Labor body, has concentrated its activities in the Blackstone valley, the most important cotton manufacturing centre in Rhode Island. There it has tied up the mills of the Lonsdale company in the same place, the Ashton mill of the Lonsdale company, the Berkeley mill and the Lonsdale division plant of the Blackstone Manufacturing Company, all owned by Coddard Brothers and employing more than 1,500 persons. Many of these hands are unorganized.

Printers and engravers and some other classes of help are on strike in the finishing plants of the United States Finishing Company in this city and Pawtucket, the Queen Lying Company in this city and Pawtucket, the Finishing Works in Cranston and the Apponaug Company in Warwick. At these plants, the pay has been decreased 15 per cent. and the fifty-four hour week has been restored.

Protest Wage Cut at Mass Meetings

Pail River, Feb. 6.—At mass meetings here, under the auspices of the "Lovers' Union," speakers declared that manufacturers who are reducing wages are inviting an industrial crisis in the textile industry. They said that manufacturers who claim they are obliged to reduce wages because of Southern competition have a poor excuse rather than a good one, when it is considered that the Southern industry is largely controlled by Northern capital. Similar meetings will take place this week.

DAYLIGHT SAVING LAW HEARING WEDNESDAY

Providence, Feb. 6.—A hearing on the daylight saving law will take place at 2 p. m. to-day at the State House. The law, which would advance the clock one hour in the summer months, has been the subject of much discussion in the State House. The Chamber of Commerce is in favor of it, while the labor union is opposed to it.

\$50,000 LOWELL FIRE IN GRAIN STOREHOUSE

Lowell, Feb. 6.—A fire in the storehouse of the Merchants Cold and Grain Company in the city of Lowell, Mass., destroyed a large quantity of grain. The fire broke out at 10 p. m. and spread rapidly, burning for several hours before being extinguished. The damage is estimated at \$50,000. The fire was caused by a gas leak in the boiler room.

Without a knowledge of it, the full swing amounts to nothing. Without balance and rhythm, all one's best efforts towards getting the ball away from the tee will be lost.

If the feet are loose together and there is a tendency to come forward on the toes, everything is ruined at the very beginning, so whatever we may do after that is of no importance. In lay-off, it is better to take the game easier at first. There should be no pressing for distance. The back swing can be a little slower and more deliberate than usual.

ing of the shot is everything, and, if one is moving his body and his club at the same time, the chances of hitting the ball as it should be hit are not so good.

The body should remain as still as possible, the head absolutely fixed, the hands and arms in the same position in addressing the ball and the body also in its same position except that it turns half way around in order to make the club head and the knees are all in a line pointing toward the ball.

A golfer once played an entire round and obtained a creditable score without ever swinging his club. He managed to do this because he had the proper swing to begin with and little else mattered.

Remembering this feat, he has remembered to do one thing that he regarded as essential which was to keep the head absolutely fixed. He was permitted to glance down and get the position of the ball and
